

LANDSCAPING: RESIDENTIAL DEVELOPMENTS AND SHOW HOMES

Today's discerning customer expects the external appearance of a new residential development to reflect the quality and lifestyle on offer inside. Initial "curb appeal" and the lasting impression of the surroundings all contribute to making a development desirable.

Charlton Brook specialises in creating landscapes and gardens that provide the ideal setting for a new development, whether it is houses, apartments or mixed use. Our designs reflect and enhance the development's style – from traditional to contemporary.

Our high specification gardens for show homes can be designed to cater to a variety of styles and tastes, showcasing the latest trends with quality planting and finishes. Because we grow our own plants in our nursery, we can ensure gardens appear well-established, whatever the time of year.

We also provide landscaping services for public open spaces, including turf/seed, planting and play areas. We are experts at laying large areas of turf and are an approved distributor for Rolawn® turf, loam, bark mulch and fertilisers.

Our additional services for developers include:

- ▶ Landscape design
- ▶ Aftercare and maintenance
- ▶ Bespoke fencing and decking supply and installation
